HOW THE \$400/ DAY WORKS

Titanium unlocks 20 driving days per month — up to 180 days per year on the road. Average that against the \$48,000 annual fee and you're paying roughly \$400 for every day you're behind the wheel of the fleet, including flagship + hypercar unlocks. Traditional exotic rentals of the same vehicles run \$1,500–\$3,500 per day with mileage caps. Titanium members drive more, pay less per day, and get 150 miles included on every drive.

Your Car. Your Year.
